Subject Index—Volume 64

American Indians

Aboriginal burning: Deflating the legend. Stephen W. Barrett, Thomas W. Swetnam, William L. Baker. 65(3): 31–34.

Ecological restoration in Montana's western larch. Hutch Brown. 65(4): 29–35.

Rodeo–Chediski: Tribal loss. Paul Keller. 65(1): 10–12.

Arizona

Arizona's Rodeo–Chediski Fire: A forest health problem. Paul Keller. 65(1): 7–9.

Fire in our mountains—and mountains in our rivers. Thomas W. Swetnam. 65(2): 28–29.

Rodeo–Chediski: Some underlying questions. Doug Beal. 65(1): 13–16.

Rodeo–Chediski: Tribal loss. Paul Keller. 65(1): 10–12.

Treatment area saves ranger station. Paul Keller. 65(3): 37.

Treatment success on the Rodeo–Chediski Fire. Paul Keller. 65(2): 30–31.

Art

Fire Management Today announces 2004 photo contest winners. Madelyn Dillon. 65(4): 38–45.

Forest fire. Larry Scott. 65(1): 23.

Aviation

The Digi-Tall Complex: A look at the future? Ken Frederick and Mike Benefield. 65(4): 16–20.

Awards

Two Golden Smokey Awards presented for 2004. Lewis F. Southard. 65(4): 36–37.

Burned Area Emergency Response

Using satellite imagery for burned area emergency response. Andrew Orleman, Jess Clark, Annette Parsons, and Keith Lannom. 65(2): 37–39.

California

America's wildlands: A future in peril. Jerry Williams. 65(3): 4–7.

Chaparral fuel modification: What do we know—and need to know? Jon E. Keeley. 65(4): 10–11.

Lessons from the 2003 fire siege in California. Jon E. Keeley. 65(4): 9–10.

Reconciling frictions in policy to sustain fire-dependent ecosystems. Jerry Williams. 65(4): 4–8.

Canada

Alberta's House River Fire. Cordy Tymstra, Bruce MacGregor, and Bruce Mayer. 65(1): 16–18.

Long-term experiment takes some of the mystery out of crown fires. Martin E. Alexander. 65(3): 35–36.

Cooperation

Building a landscape-level prescribed fire program. Joseph P. Ferguson. 65(3): 16–18.

Los Alamos project: Reducing fire hazards in the wildland/urban interface. Susan DiMauro. 65(4): 21–23.

A new look at wildland/urban interface hazard reduction. Jeremy A. Keller. 65(3): 8–11.

On parallel tracks: The wildland fire and emergency management communities. Jeremy A. Keller. 65(1): 30–34.

Operation Success: Columbia Space Shuttle recovery. Traci Weaver. 65(2): 32–34.

Public perspectives on the "wildfire problem." Tony S. Cheng and Dennis R. Becker. 65(3): 12–15.

Shuttle recovery: Largest GIS emergency response to date. Traci Weaver. 65(2): 35–36.

Ecological Restoration

Ecological restoration: Two recent studies. Hutch Brown. 65(3): 11.

Ecological restoration in Montana's western larch. Hutch Brown. 65(4): 29–35.

Emergency Management

On parallel tracks: The wildland fire and emergency management communities. Jeremy A. Keller. 65(1): 30–34.

Operation Success: Columbia Space Shuttle recovery. Traci Weaver. 65(2): 32–34.

Shuttle recovery: Largest GIS emergency response to date. Traci Weaver. 65(2): 35–36.

Using satellite imagery for burned area emergency response. Andrew Orleman, Jess Clark, Annette Parsons, and Keith Lannom. 65(2): 37–39.

Equipment and Engineering

The Digi-Tall Complex: A look at the future? Ken Frederick and Mike Benefield. 65(4): 16–20.

Satellite mapping of wildland fire activity. Keith Lannom, Brad Quayle, and Mark Finco. 65(2): 40–41.

Shuttle recovery: Largest GIS emergency response to date. Traci Weaver. 65(2): 35–36.

An updated rate-of-spread clock. Jeremy Kolaks, Keith Grabner, George Hartman, Bruce E. Cutter, and Edward F. Loewenstein. 65(4): 26–27.

UMI® Periodicals in Microform

SHOULD READ VOLUME 65.

Using satellite imagery for burned area emergency response. Andrew Orleman, Jess Clark, Annette Parsons, and Keith Lannom. 65(2): 37–39.

Fire Behavior

Alberta's House River Fire. Cordy Tymstra, Bruce MacGregor, and Bruce Mayer. 65(1): 16–18.

Chaparral fuel modification: What do we know—and need to know? Jon E. Keeley. 65(4): 10–11.

Contrast modeling and predicting fire behavior. James K. Barnett. 65(3): 19–22.

How did prefire treatments affect the Biscuit Fire? Crystal Raymand and David L. Peterson. 65(2): 18–22.

Lessons from the 2003 fire siege in California. Jon E. Keeley. 65(4): 9–10.

Long-term experiment takes some of the mystery out of crown fires. Martin E. Alexander. 65(3): 35–36.

Rapid-response fire behavior research and real-time monitoring. Carol J. Henson. 65(3): 23–26.

Rodeo–Chediski: Some underlying questions. Doug Beal. 65(1): 13–16.

Oregon's Biscuit Fire: Monster in the woods. Beth Quinn. 65(2): 4–17.

Treatment area saves ranger station. Paul Keller. 65(3): 37.

Treatment success on the Rodeo–Chediski Fire. Paul Keller. 65(2): 30–31.

An updated rate-of-spread clock. Jeremy Kolaks, Keith Grabner, George Hartman, Bruce E. Cutter, and Edward F. Loewenstein. 65(4): 26–27.

Washington's "awful conflagration"—The Yacolt Fire of 1902. Richard McClure. 65(1): 24–27.

Fire Ecology

Aboriginal burning: Deflating the legend. Stephen W. Barrett, Thomas W. Swetnam, William L. Baker. 65(3): 31–34.

America's wildlands: A future in peril. Jerry Williams. 65(3): 4–7.

Ecological restoration: Two recent studies. Hutch Brown. 65(3): 11.

Ecological restoration in Montana's western larch. Hutch Brown. 65(4): 29–35.

The effects of fire on rare plants. Wayne Owen and Hutch Brown. 65(4): 13–15.

Fire in our mountains—and mountains in our rivers. Thomas W. Swetnam. 65(2): 28–29.

Rodeo–Chediski: Some underlying questions. Doug Beal. 65(1): 13–16.

Reconciling frictions in policy to sustain fire-dependent ecosystems. Jerry Williams. 65(4): 4–8.

Fire Effects

The Big Blowup's impact on an Idaho town. Ron Roizen and Jim See. 65(4): 24–25.

The effects of fire on rare plants. Wayne Owen and Hutch Brown. 65(4): 13–15.

Fire in our mountains—and mountains in our rivers. Thomas W. Swetnam. 65(2): 28–29.

Hayman Fire impacts. Russell T. Graham, Mark A. Finney, Jack Cohen, Peter R. Robichaud, William Romme, and Brian Kent. 65(1): 19–22.

How did prefire treatments affect the Biscuit Fire? Crystal Raymand and David L. Peterson. 65(2): 18–22.

Rodeo–Chediski: Some underlying questions. Doug Beal. 65(1): 13–16.

Treatment success on the Rodeo–Chediski Fire. Paul Keller. 65(2): 30–31.

Fire History

Aboriginal burning: Deflating the legend. Stephen W. Barrett, Thomas W. Swetnam, William L. Baker. 65(3): 31–34.

Alberta's House River Fire. Cordy Tymstra, Bruce MacGregor, and Bruce Mayer. 65(1): 16–18.

Arizona's Rodeo–Chediski Fire: A forest health problem. Paul Keller. 65(1): 7–9.

Fire in our mountains—and mountains in our rivers. Thomas W. Swetnam. 65(2): 28–29.

Hayman Fire impacts. Russell T. Graham, Mark A. Finney, Jack Cohen, Peter R. Robichaud, William Romme, and Brian Kent. 65(1): 19–22.

Lessons from the 2003 fire siege in California. Jon E. Keeley. 65(4): 9–10.

Oregon's Biscuit Fire: Monster in the woods. Beth Quinn. 65(2): 4–17.

Rodeo–Chediski: Some underlying questions. Doug Beal. 65(1): 13–16.

The Southwest: A record-breaking fire year. Paul Keller. 65(1): 4–6.

Treatment success on the Rodeo–Chediski Fire. Paul Keller. 65(2): 30–31.

Washington's "awful conflagration"—The Yacolt Fire of 1902. Richard McClure. 65(1): 24–27.

Fire Prevention

Two Golden Smokey Awards presented for 2004. Lewis F. Southard. 65(4): 36–37.

Fire Use

Aboriginal burning: Deflating the legend. Stephen W. Barrett, Thomas W. Swetnam, William L. Baker. 65(3): 31–34.

The Digi-Tall Complex: A look at the future? Ken Frederick and Mike Benefield. 65(4): 16–20.

Ecological restoration: Two recent studies. Hutch Brown. 65(3): 11.

Ecological restoration in Montana's western larch. Hutch Brown. 65(4): 29–35.

Fuels Management

Arizona's Rodeo–Chediski Fire: A forest health problem. Paul Keller. 65(1): 7–9.

Building a landscape-level prescribed fire program. Joseph P. Ferguson. 65(3): 16–18.

Chaparral fuel modification: What do we know—and need to know? Jon E. Keeley. 65(4): 10–11.

Ecological restoration: Two recent studies. Hutch Brown. 65(3): 11.

Ecological restoration in Montana's western larch. Hutch Brown. 65(4): 29–35.

How did prefire treatments affect the Biscuit Fire? Crystal Raymand and David L. Peterson. 65(2): 18–22.

Lessons from the 2003 fire siege in California. Jon E. Keeley. 65(4): 9–10.

Los Alamos project: Reducing fire hazards in the wildland/urban interface. Susan DiMauro. 65(4): 21–23.

A new look at wildland/urban interface hazard reduction. Jeremy A. Keller. 65(3): 8–11.

Rodeo–Chediski: Some underlying questions. Doug Beal. 65(1): 13–16.

Treatment area saves ranger station. Paul Keller. 65(3): 37.

Treatment success on the Rodeo–Chediski Fire. Paul Keller. 65(2): 30–31.

Geographic Information Systems

Shuttle recovery: Largest GIS emergency response to date. Traci Weaver. 65(2): 35–36.

Hazard/Risk Assessment

Chaparral fuel modification: What do we know—and need to know? Jon E. Keeley. 65(4): 10–11.

Los Alamos project: Reducing fire hazards in the wildland/urban interface. Susan DiMauro. 65(4): 21–23.

A new look at wildland/urban interface hazard reduction. Jeremy A. Keller. 65(3): 8–11.

History

America's wildlands: A future in peril. Jerry Williams. 65(3): 4–7.

The Big Blowup's impact on an Idaho town. Ron Roizen and Jim See. 65(4): 24–25.

Reconciling frictions in policy to sustain fire-dependent ecosystems. Jerry Williams. 65(4): 4–8.

Rodeo–Chediski: Some underlying questions. Doug Beal. 65(1): 13–16.

Snow Camp Lookout: Remembering a Biscuit Fire casualty. Jan Robbins. 65(2): 23–24.

The Southwest: A record-breaking fire year. Paul Keller. 65(1): 4–6.

Washington's "awful conflagration"—The Yacolt Fire of 1902. Richard McClure. 65(1): 24–27.

Idaho

The Big Blowup's impact on an Idaho town. Ron Roizen and Jim See. 65(4): 24–25.

Incident Management

Alberta's House River Fire. Cordy Tymstra, Bruce MacGregor, and Bruce Mayer. 65(1): 16–18.

Contrast modeling and predicting fire behavior. James K. Barnett. 65(3): 19–22.

Corrections on Thirtymile. Editor. 65(1): Back cover.
